Subject: Microsoft Settlement

Friends:

I am writing to support the Microsoft settlement. I am a 4th grade teacher and a building computer contact in our district. Our school, along with others would welcome any and all help for our technology program. Because of budget cuts, our entire computer budget relies solely on our state TEACH grant which amounts to about \$40,000. The inservice portion of our budget is gone, and almost no training takes place. Hardware and software budgets are about one fourth of 3 years ago. Please settle this agreement and help us and other schools.

Thank you for your consideration.

Have a GREAT DAY!
